General description

We are a company strategically based in the central part of the country, with proven experience in supervising, coordinating or directing works of industrial buildings, service buildings, such as homes or schools, residential buildings, housing and infrastructures. We offer a complete service, from measurements and budgeting of works, tender processes to construction management and technical support for the choice of contractors and suppliers, inspections of buildings and works of art, with hundreds of infrastructures inspected. Our area of influence is from Aveiro to Setúbal. We have competent staff in languages such as English, Spanish and French.
